

sys_elixir

Building Systems with Elixir is a custom course designed by Raj Balasubramanian of Tejas Buds Tech LLC for various staff and independent devs or aspiring devs to onramp to Elixir.

This is designed as an 18 week course work with 14 learning/watching/coding and 4 weeks dedicated to a semi-complex project build.

All work will be checked into the respective lesson folder. For example, the first set will be checked into [les0](#) folder and so on.

There will be a total of 12 lessons that need to be completed in 14 weeks. The start of the class is 2024-11-24 and will end 2025-03-30.
